Post Results Services Summer 2022

Each awarding body offers a range of post result services in line with JCQ Regulations. Below is an overview of what each service entails.

Access to Scripts

Access to Scripts service allows you to request copies of your marked exam papers. Scripts do not have examiner annotation on them, but you can see the marks. Scripts are unlikely to be available in time to support priority review of marking requests.

Clerical Check**

This service will include checks to:

- ensure all parts of the script have been marked
- the totalling of marks
- the recording of marks

Completion deadline is within 10 calendar days of application.

Review of Marking**

A review of marking does not re-mark the script but reviews the original marking to ensure the agreed mark scheme has been applied correctly. This service also includes clerical re-checks.

Completion deadline is within 20 calendar days of the awarding body receiving the request. Priority requests completed within 15 days.

IMPORTANT

Exam boards strongly advise that students inform their college choice that a review or clerical check has been requested. By informing them, they **MAY** be able to keep a place open until the review has been completed. Exam Boards **WILL NOT** inform other educational settings that a request has been made.

The following page details the fees payable for the post results services available. Please note that there is a higher fee charged for a priority service where available. Fees will be refunded if your overall grade changes following a review.

** It is extremely important to know that when requesting a 'Review of Marking' or 'Clerical Check' marks can be increased, remain the same or, be lowered which can affect the overall qualification grade. This also applies to priority services.

You must complete a form to acknowledge you understand the implications of requesting a review and provide your consent. Applications will not be processed without signed consent.

Post Result Services for GCSE Results 2022
