

'Gender equality means that women and men and girls and boys enjoy the same rights, resources, opportunities and protections. Investments in gender equality contribute to lifelong positive outcomes for children and their communities and yield considerable inter-generational payoffs, as children's rights and well-being often depend on the rights and well-being of women.' *UNICEF*

It's important to remember gender is a spectrum and people can experience gender inequality in different ways. 1 in 5 transgender people do not feel able to wear attire representing their gender at work.
