

APPOINTMENT OF HOSPITALITY & CATERING TEACHER (PART TIME maternity cover)

CONTEXTUAL INFORMATION

We currently have a vacancy for a part-time teacher to teach within the Design & Technology departments. This post has arisen due to the maternity leave of a current Hospitality & Catering Teacher.

We are seeking a creative teacher who will help shape the future curriculum and deliver high quality daily experiences for our students. We expect the successful candidate to be a strong classroom practitioner in at Food or Hospitality & Catering. An interest and ability to deliver all subjects within the department is also desirable.

D&T is a well respected and supported subject within the school. We have (and continue to receive) significant investment to help us deliver an modern and engaging curriculum. Hospitality & Catering and RM students are taught in classes no bigger than 20, in line with CLEAPSS H&S recommendations.

Design & Technology

Staffing

There are currently 8 teachers in the department, teaching in a variety of subject areas and we are assisted by 2 full time technicians. All staff are supportive and work together to constantly improve all aspects of the department's work. We constantly strive to engage, enthuse and inspire our students both through good or outstanding teaching and our broader departmental environment. Your role will be to help improve the performance of others.

Curriculum

The school has seized the initiative in developing our curriculum.

"They benefit from a carefully planned and organised curriculum. Leaders' careful checks on what is happening mean that they know where learning is really strong and where there is still some work to be done." (Ofsted 2020)

Subjects are expected to have common schemes of work and are in the process of developing common evidence-based strategies to reinforce learning and the retention of knowledge. Students *"are taught the things they need to know, in the right order, so they can remember this new knowledge and build on their learning. But this is not yet consistent enough." (Ofsted 2020).*

Our timetable sees all students studying Design & Technology at in years 7-8. Students develop the process using a range of media that prepare them for the subjects that we offer at key stage 4. Our Design & Technology department has a history of recruiting healthy numbers of students into subjects through options and often delivers grades that are the highest that each student secures across the school. Ensuring that is consistently the case will be one of the challenges.

At key stage 4, the following courses are currently taught:

- WJEC Technical Award in Hospitality and Catering

- Eduqas GCSEs in Design Technology - Timbers
- Eduqas CGSE Art & Design - Textiles
- COYO Design, Engineer & Construction Level 1/ Level 2 Awards

During year 9, students will be given a foundation in the subject that they have selected before commencing the examination content in year 10.

At key stage 5, our offer is reviewed on a year-by-year basis, currently we are in introducing the Design, Engineer, Construct Level 3 Award

We are always looking to offer the most exciting, relevant and enjoyable experience for our students. We will therefore readily consider alternatives to our curriculum where it would be in the best interests of our students. Our primary aim is to engage our students and ensure that they achieve and this will require the successful candidate to have an innovative, flexible and inspirational approach to work and building relationships within the school.

Facilities

The department is housed in 9 well-appointed classrooms / workshops along with a resource base. All classrooms have a data projector and extensive ICT facilities. Classrooms consist of:

- 2 Hospitality & Catering rooms
- 3 Resistant Material / manufacturing workshops including laser cutter / 3D printing facilities
- 2 Computer suites / Design, Engineer, Construct room all with industry standard Revit Software
- 2 Textiles rooms

Conclusion

We look forward to welcoming a well-qualified colleague who will work with us to build on established strengths and contribute to the continuing success of the department and school.

This is an exciting opportunity for the right person to develop their career. We look forward to receiving your application.

Mrs Rosie Webber, Curriculum Leader Design & Technology

April 2026
