

Nuts

We ask all students:

Do not bring nuts into the school.

Please think of other students health

In the school kitchen, we do not buy any products that contain nuts and deliberately avoid having any such products in the kitchen.

There are occasional pastry products that say, may contain, as they are produced in a factory that also makes products with nuts, this is always at the lowest percentage for nut allergy suffer, but each individual varies. Always Ask.

There is nothing on our hot lunch menu and chilled deli menu that contains nuts as we make everything fresh each day

All students can always ask the friendly ladies on the main hot counter and we can assure them that their food does not contain nuts.

There is also information on the school website, if you wanted to take a more detailed look.

We are always happy to discuss more
